

All Walks of Life

Tom Mody & Jeffrey Harris

Enchantment of society
Obstructs the views of sanctity
Who's to say we are disdain
No one word definition
Describes human condition
Rest assured we all are not the same

Attention it's your maker don't be fooled
The world will still revolve tomorrow.
The master plan is well in hand
You don't have to live by the stars
You don't have to live by the cards.
To live life right

The road to jealousy is the same road to tranquility
Depending are you headed north or south
The short cuts of society may impair your ability
Be aware you may walk astray

Attention Mr. Maker if you care
Will my fortunes turn tomorrow
The master plan seems out of hand.
Why must I wonder in my bed at night

[chorus]
All walks of life
Must walk through life
Day by day
But necessarily the same way

Attention- the sun rose without sorrow
The master plan is in command
I now see a different way
I now see a new dawning

[chorus repeat]
