

One Point of Light

Tom Mody

One Point of Light
Against ten dirty lies
And a hundred silent screams
And a thousand ways to die

One point of light
Against every wrong we're taught
And endless seeds of doubt
And infinite negative thoughts

One point of light
Can pierce the crystaled veil
And shatter the crimson crown
But the shards still puncture like nails

[chorus]
(I'm taking you down)
Follow the light
[repeat]
(I'm taking you down)
Just follow the light
[repeat]

One point of light
Dead aimed between the eyes
Can burn the mask of hate
And split the cultured vice

One point of light
Creates resonant place
Dissipates cowardice hives
Illuminates alternate space

One point of light
Can pierce the crystaled veil
And shatter the crimson crown
But the shards still puncture like nails

[chorus repeat]

One point of light
Has a million rays of hope
To light the eternal night
And fuel the internal fight.

[chorus repeat]
