

Whisper Wind

Tom Mody

Whisper Wind
Keeping me in bed.
Whisper Wind
Says winter's ahead

Frosty window pane
Brisk November rain
Silent hush the trees
Voices echoing through falling leaves

[chorus]
Whispers in my head
Whispers in my head
Whispers in my...

Whisper Wind
Talks a gloomy game
Whisper Wind
Finds something to blame

So with the birds away
You talk to me all today
If I'm your only friend
I guess I'll lend my ear to bend

[chorus]
Whispers in my head
Whispers in my head
Whispers in my...

Time once slowly
Now moves boldly
Whisper Wind my friend
Fading in my head
Seasons cease to change
The silence sounds so strange

[chorus]
Whisper Wind is dead
Whisper Wind is dead
So long my friend
